

Imagine...

An innovative appliance that replaces all the bottled water you could ever drink.

Introducing the ION, the exciting new alternative to bottled water and soft drinks. Pure water refreshment at the touch of a button.

At the source of every delicious sip is ION's exclusive FiberTek© filter, reducing a wide range of contaminants, transforming ordinary tap water into a reliable source of endless enjoyment, at your home or office.

Quench your thirst anytime with a variety of healthy beverages — icy cold still water, piping hot water to warm you on cold days, or the bubbly effervescence of Sparkling Water.

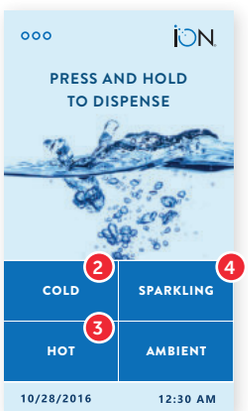

So leave the heavy bottles and sugary soft drinks behind, and start enjoying the unlimited possibilities of the simple, pure, refreshment that is ION.

Good for You, Good for the Planet.

The Technology of Pure Refreshment

1. InstaChill™
Every glass is freshly filtered and instantly chilled in a Sealed Water Pathway where air never contacts the water supply.

2. Cooling Capacity
Dispense an 250 ml glass of water every 30 seconds, for an hour... and ION makes sure it's 5,5 °C or colder. No other cooler even comes close.

3. Rapidhot™
Tea, cocoa, and even instant soups are delicious with piping hot, freshly filtered water. Up to 8 Liter per hour, convenient and ready whenever you are.

4. Sparkling Water
Indulge your healthy lifestyle with the healthy alternative to soft drinks. Refreshing with juice, or a twist of lemon or lime.

5. Quick Filter Changes
A simple twist to remove the filter, without any tools ...even without turning off the water supply.

6. Energy Savings Mode
Why run an appliance when no one is using it? Schedule ION's Sleepmode™ to reduce energy consumption anytime, anywhere.

7. Touchscreen Technology
Easy to use Touchscreen allows users to customize settings, and provides maintenance reminders.

8. Front connection CO^2 bottle
Feature for easy to change CO^2 cylinder which are available at your Natural Choice Office. Provides up to 60 Liter of powerfull Sparkling Water.

ION Microprocessor Control
Proprietary software and precision sensors deliver exact temperature control and ensure high performance under extreme conditions.
